The screenshot shows the IBM Cloud dashboard in a web browser. The browser's address bar displays 'cloud.ibm.com'. The dashboard header includes the 'IBM Cloud' logo, a search bar, and navigation links for 'Catalog', 'Manage', and the user's account, 'Lokeshwari J's Account'. The main content area is titled 'Dashboard' and features a 'For you' section with six quick-start guides: 'Build', 'Get Started with Watson Studio', 'Get started with machine learning + Watson Studio', 'Build with Watson', 'Build a web app with Watson Speech to Text', and 'Use Speech to Text'. Each guide includes a brief description, a 'Popular' or 'Getting started' badge, and a time estimate. Below this section are four tiles: 'News', 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status', each with a 'View all' link. The 'News' tile lists recent announcements, including 'Announcing IBM Cloud Pak for Network Automation Version 2.4' and 'IBM Tech Now: October 24, 2022'. The 'IBM Cloud status' tile shows a world map with a blue chat icon. The Windows taskbar at the bottom includes a search bar, task view button, and icons for File Explorer, Edge, Mail, and Chrome. The system tray shows the time as 15:54 on 01-11-2022.
